

THE ARCHANGELS

UNDERSTANDING ARCHANGELS AND HOW TO INVOKE THEIR PRESENCE

To invoke means to summon or to call in. It is an important skill to learn and understand when you work with angels. Invoking angels is very powerful and adds extra potency to prayers and healing.

Everyone has a higher self and an ego-self. Your ego thinks it can do everything alone, without Divine Spirit and the angels. Ego can achieve many things, but it keeps you trapped in fear and struggle and sometimes in a cycle of fear and karma.

Your angels are a part of your soul plan. You are meant to have their help. Not accepting their assistance is a bit like not using one of your arms or legs, you could probably get most things done but isn't it easier and more sensible to use what God gave you?

You have free will to ask your angels for help or not, you also have free will to follow their guidance too! Invocations give your angels and archangels permission to intervene and overcomes that little part of you that wants to do it alone!

ARCHANGELS

Archangels are large powerful angelic beings who take care of humanity, the planet and many different aspects of the Universe. There is an Archangel who looks after health and healing, an Archangel who takes care of lakes and rivers, and another who oversees the spiritual growth of humanity.

Like all angels they come from God/ Divine spirit, the Source of all that is. You could say that they are aspects of the divine and as archangels, they are also available for humanity to call upon in times of need.

When you call on an Archangel you unlock a certain frequency of energy and release that energy into your life to solve a problem and to

bring a higher positive and healing vibration to the situation. This is often miraculous and allows for change and growth.

Archangels carry great wisdom, and so when you connect with them, the wisdom is also unlocked for you to learn from your challenges and understand yourself, your life and the Universe in a new way.

Invoking Archangels, draws their high light filled frequencies to the planet and your own situation. There is no need to feel guilt for calling on angels and Archangels for help. You are helping the Divine to spread Divine light!

It is also worth remembering that when you are peaceful, free of struggle and fulfilled you will have more light, love and peace to with the world.

Having a close relationship with your angels and the Archangels is part of your soul plan. Angelic guidance brings peace to your life and directs you to your path. You are here to fulfil your soul's growth and to achieve a bigger purpose, in order to do this, you need your whole team.

Through the Divine and your soul, you're linked inextricably with everyone and everything on the planet.

Learning to invoke angels and archangels is a vital tool which will hugely benefit your life.

Angel Invocations can be **informal or formal**. Informal prayers work particularly well when you need to call on your angels for support and healing in the spur of the moment.

Formal invocations are perfect when you want to pray sincerely, set intentions for your life, or perform a ceremony for healing or manifesting.

You can call on "the angels" generally, or a specific angel or archangel depending on what you need. In the next chapter I've given you a list of some of the major archangels and what they can help you with.

HERE ARE THE NAMES OF SOME ARCHANGELS AND THEIR AREA OF EXPERTISE!

ARCHANGEL CHAMUEL- (SEEKER OF GOD) PINK GOLD RAY

Archangel Chamuel helps you to find what seems to be lost or missing in your life. This can be your keys or a long-lost friend, or Chamuel can help you to find your soul-mate, your ideal career or your dream home.

The Divine Wisdom that Chamuel teaches is *that nothing is lost or missing in the mind of God. You are not lacking in anyway.*

Problems, scarcity and obstacles come from the human fear mind- or ego. When you feel that something is lacking within you or your life, you are disconnecting with the state of abundance which is normal from a spiritual perspective.

Affirm that *“nothing is lacking or lost in the Divine Mind”* and you will connect with what you are seeking

As the Angel of Love and connection this Archangel can help you with relationships, both with yourself and with others.

Archangel Chamuel will help you to recognise that you are whole as you are, there is nothing missing from within you. This in turn can help you to heal yourself and your relationships. A search for perfection can lead to judgment of yourself and others and puts up a wall over your heart.

When you understand and acknowledge your innate wholeness, then wholeness is what you will experience on every part of your life.

ARCHANGEL RAPHAEL HEALER OF GOD- GREEN GOLD RAY

Archangel Raphael is the Divine healer who uses his incredible green and golden light to heal. This light is Divine healing energy and is so

powerful it can return your body, mind and spirit to complete health and balance.

Invoke Archangel Raphael when you feel unwell, or if you're struggling with any physical, emotional or mental health issues.

He will guide you to the right practitioner if you ask, and even work through any professional healing expert. I often ask Raphael to work with and through my dentist and even massage therapists to ensure I receive the highest care.

As soon as you invoke his presence, this sweet loving Angel will help you with your health, guiding you to foods, books, medicines and people who can help you.

Archangel Raphael will also help you to understand what is toxic and unhealthy for you and help you to let go of these activities. Raphael is the best to call on for help with giving up caffeine, smoking, and other unhealthy practices including addictions. I released many of my unhealthy habits with the help of Archangel Raphael, I simply asked, cut cords with the substance and felt my attraction for these unhealthy items fall away.

Archangel Raphael teaches that you are already healthy in spiritual truth and your body always knows how to heal itself.

When you experience a lack of health and healing seems hard to achieve, it is a sign that you have adopted a mindset and perhaps habits that are blocking you from the Divine truth. In other words, you've become disconnected from your true self.

When you are ready to heal, you'll be willing to let go of the block and change your thoughts and behaviours so your body, mind and spirit can return to health

All disharmony is a sign from within that you need to make a change. Disease is a calling from within for healing of mind, spirit and body.

There is no disease in the Divine mind, therefore healing is always possible.

Healers also attract Raphael as their guardian angel, who assists them to heal others.

Use Archangel Raphael's green-gold light to surround any situation that exhibits disease or disfunction. *I, Raphael, am with you in the light and you will know that you are whole in truth. See yourself as already healed and it will be so.*

ARCHANGEL MICHAEL LIKENESS OF GOD, BLUE RAY

The key word for Archangel Michael is *warrior*. He is the protector of the Universe and of humanity. He is so powerful, his light swipes away all fear and harmful low energies instantly.

Michael carries a sword of light, a flaming sword that can cut away all negative energies and cords from you. This is a miraculous, life changing and immensely powerful way to free you from the pain in your life.

When you cut a cord, you sever the negative energy that links you to another person or even a traumatic event. These cords can be thick as tree trunks in some cases and their presence chokes off the positive energy leaving a person feeling drained and unable to move forward.

Archangel Michael's aura is the brightest blue and violet light. He can lend you his light to protect your energy and clear away the effects of fear and negative entities.

Archangel Michael knows that fear is the most harmful energy to humanity. When we feel fear, we suppress our light and become trapped in damaging thoughts and behaviours.

All the emotions that come from FEAR can become destructive: Anger, rage, jealousy, judgment, doubt, judgment, hate, anxiety, depression, guilt, shame, blame and resentment.

We must learn to clear ourselves of these emotions rather than hold on to them. Everyone must take responsibility for what they feel and not project them outwards. Emotions are not negative until we allow them to take over our minds.

Most emotion is meant to be felt and acknowledged, then released.

All feelings are real and not meant to be denied, however, to live together and create a harmonious world we need to develop emotional self-awareness and maturity and not use our negative emotions to harm ourselves or others.

For instance, if you feel jealous of someone's success or happiness, you can contemplate the emotion and let yourself acknowledge it. When you do, you may realize that the jealousy comes from a place inside you that fears *you* won't be happy. You might then change something in your life so that happiness and success can come to you. Allow your feelings to guide you in a new direction and then release them.

When you deny feelings, they control you, and cause problems in your life.

Archangel Michael is the protector angel and will work with your guardian angels to keep you safe from harm and will give you a boost of courage to help you to overcome fear and do what is right for you.

Michael helps you to **feel** and be safe, he uses his powerful warrior like energy to surround you with Divine light. He also asks that you take steps to protect yourself and your energy and not rely only on him!

He teaches that in order to be fearless you need to use your mind and energy to project your own power and create boundaries. If something is not good for you, walk away!

You always have access to Archangel Michael, you can call on him to be with you at any moment.

Archangel Michael teaches us that there is *no fear in the Divine mind*, and therefore fear does not really exist. *Only love is real*. When you tune into the channel of Divine love, power and intelligence, fear need not be a part of your life.

How can you reduce fear in your life? Where can you avoid drama, negativity, fear-based ideas and violence so that you can tune into Divine Love and create more peace in your life?

You have access to Divine power, you are powerful, do not allow fear or fear thoughts to undermine you or your life path. Choose peace. Call on me when you feel unsafe and I will guide you out of the darkness.

ARCHANGEL RAGUEL-FRIEND OF GOD THE TURQUOISE RAY

Archangel Raguel is the angel of harmony between people, nations, groups of all kinds.

He is ideal to call on when you are having any type of conflict. Raguel brings the energy of peace and calm, so that you can disconnect from your ego fear mind and reconnect with the higher divine mind for the truth.

Raguel may guide you to walk away from a situation or show you how to make peace with your friends or family. Miracles can unfold when you invoke Raguel to arguments!

Raguel will surround these conflicts with his light and supercharge them with peaceful energy so that everyone can start to see a different loving

perspective. Take Raguel with you into any challenging situation and where you need to be heard and understood.

ARCHANGEL RAGUEL TEACHES US HOW TO LOOK FOR THE SIMILARITIES AND LOVE WITHIN EACH OTHER, TO ACCEPT DIFFERENCES AND TO AVOID JUDGMENT.

However, Raguel is no pushover, he won't make you stay in an abusive or unhealthy relationship but can guide you to safety and peacefully direct you to new connections that *will* fulfil you.

It can take great wisdom to know when something isn't right for you and to let go with love. It can be an important soul lesson to see that sometimes even those you love aren't necessarily good for you.

Archangel Raguel knows that good relationships are vital to your well being and will help you to find like minds and good friends.

Call on Raguel to help you with forgiveness when a relationship ends, so you can move on!

ARCHANGEL URIEL: LIGHT OF GOD, GOLDEN RAY

Archangel Uriel is a wise guru angel who carries a lantern, symbolic of lighting your path and illuminating your mind.

With Archangels around you can't get away with making the same mistakes over and over, they are here to teach you to grow!

Your mind is a powerful part of your life and how you use it determines what kind of life you have. When you focus on fear-based thoughts, such as guilt, resentment, doubt and unworthiness your life can feel very difficult.

You disconnect from the Divine when you focus on fear because fear is a much lower frequency than the Divine "channel" of love, peace, happiness, gratitude.

Archangel Uriel can heal you by guiding you out of negative situations and thought patterns. Uriel will help you to shift your mindset to a healthier more empowered frequency. To begin this process, ask to be attuned to the Divine and to think the thoughts of God.

Archangel Uriel is also helpful in helping you to see and understand your guidance, by clearing your mind. Perhaps your fears have kept you “blind” to your angels and your next steps?

Uriel teaches the wisdom of Light:

Go towards the light in all that you do, think and say. I am with you there. If you are uncertain, I will guide you. Keep your mind attuned to what you want, rather than what you fear.

Know that you are never alone, we angels are with you, always.

ARCHANGEL GABRIEL: MESSENGER OF GOD BLUE GOLD RAY

Archangel Gabriel carries the blue-gold ray to activate your throat chakra and help you to understand your life purpose.

Life Purpose isn't only about a job or a career, but it can be a daily purpose. Archangel Gabriel asks you to understand that your life matters, every single day. When you realize this, you become more present and aware that your personal happiness and fulfilment counts!

Each day you can ask to fulfil a purpose and be a light to the world on behalf of the Angels and God.

If you feel a strong calling to a more meaningful and fulfilling career, invoke Gabriel to help with finding work that supports you on every

level. Her guidance will be strong and subtle, so be sure to meditate to connect with her.

Gabriel is often depicted as female and is also the angel of motherhood, pregnancy and birth.

Gabriel teaches us compassion and acceptance. She helps you to understand what it is to have a strong purpose and make sacrifices for what you want to achieve in the world.

She'll work with you to boost your self esteem and act in integrity, and then she will bring divine ideas and missions for you.

She teaches the wisdom of knowing you are worthy and a part of the Divine plan. *If you only knew how loved and revered, you are. I am with you, part of my service to you is to ensure you treat yourself with love and kindness, disconnect with the outer-world of competition and fear, come within and I will be with you, showing you the way.*

ARCHANGEL METATRON VIOLET RAY

Metatron always appears to me carrying the Sacred geometric MERKABA. A sacred geometric symbol of manifesting. Metatron is almost solely responsible for helping light workers to expand their energy and go through the Ascension.

The ascension involves humanity raising their
consciousness to the higher levels of peace and
harmony, so we don't destroy ourselves and each-
other.

At this moment in time Metatron is helping us all to raise our frequency and spiritual understanding of our spiritual, energetic bodies and purpose.

When you understand energy and use energy techniques to take care of yourself and your life, your life flows. All the niggly little problems go away because you are coming from your TRUE SELF.

Part of my Angel program is working with the Archangels to ascend your frequency and bring you into awareness of your angelic helpers, your energy and how to manifest peacefully and with love.

You are a spiritual being having a physical experience. Your spirit is eternal your body is elemental, while you are in physical you have so much to experience, enjoy and create. Stay connected to the Divine matrix and God Source and you will be ushering the new energy of peace for all to benefit from. Without your Divine matrix and awareness of it, you will feel powerless and lost. Use the building blocks of creation for the highest good of all and work with us angels to help you to overcome the heaviness.

ARCHANGEL RAZIEL WISDOM OF GOD RAINBOW RAY

Archangel Raziel is a large and wise angel who walks with you when you consciously step onto the Spiritual path, in fact he may be responsible, along with your guardian angels, for nudging you onto your path in the first place.

Raziel's aura is rainbow coloured, he carries a big book- the akashic records showing the past lives and all the wisdom of your soul.

Archangel Raziel helps you to understand spiritual laws.

There are certain laws in the Universe that keep everything flowing and apply to humanity. You can brush up against these laws when trying to manifest and if you break them it can be very painful and end up being big life lessons.

When you try to live life from your ego (separate, controlling, dishonest judgemental) you will always find life harder because it keeps you disconnected from Divine Spirit. If you try to manifest with your ego, it feels like a struggle and everything is forced, nothing will fulfil you.

Some spiritual laws connected with manifesting prosperity are- the **Law of Karma (cause and effect) Law of Allowing, Law of Appreciation.** We start to understand the truth about energy and how to interact with the energy to create our lives.

For instance, the Law of Karma reveals that if you take something that does not belong to you, you will lose something of equal value or the very thing that you “stole”. This is because stealing or taking someone else’s stuff (including partners) comes from a state of scarcity thinking. Don’t worry it’s not punishment it’s just the way energy works, everything is always balanced.

The Divine Laws of Abundance mean that you don’t need to steal anything, but you use your God given manifesting gifts and ask for what you want for the highest good. You might pray “this or something better please” so that you are not using your ego to manifest an outcome that is not meant for you!!

Raziel translates spiritual laws into language that you understand, when you sincerely step onto your spiritual path Raziel will introduce you to the information that you most need to know and teach you how to apply it in your life.

Like all the angels I cannot overpower your Free Will, so you have a choice always to follow the guidance or not, listen or ignore!

There are many angels and Archangels, the ones described above are the main Archangels I work with and who appear in my healing sessions and meditations. They stepped forward today to bring you their wisdom!

When working with any spiritual being, always offer gratitude and respect. They're not genies though they are here to help you, do your best to meet them half way and take their guidance on board.

It's a privilege to work with angels and receive their messages.
